RISK MANAGEMENT

Focus on Nonprofits

Outlook The nonprofit sector employed 12.3 million people in 2016, growing nearly 17% from 2007 to 2016. (John Hopkins University – Center for Civil Society Studies). Employment of social and community service managers is projected to grow 18% from 2016 to 2026, much faster than the average for all occupations. (Bureau of Labor Statistics, Occupational Outlook Handbook, 2019)

Injuries Hospital workers experience 129.8 injuries or illness per 100,000 workers, significantly higher than the overall rate for private industry (89.4). Experience for the education services (50.9) and social assistance industries (88.4) is lower. (Bureau of Labor Statistics, 2017)

Workforce Most nonprofit jobs are in health care (hospitals, health clinics and nursing homes), education (including private schools) and social assistance. (John Hopkins University – Center for Civil Society Studies).

Risk Profile – Five Top Factors

- One: Slips, Trips and Falls**
For staff as well as customers.
- Two: Patient Care**
Moving and positioning patients lead to injuries and accidents.
- Three: Workplace Violence**
Health care and social services workers are at a greater risk of being assaulted.
- Four: Cyber Security and Network Integrity**
The transfer and storage of patient data creates formidable patient privacy issues.
- Five: Changing Regulatory/Legislative/Reimbursement Environment**
Uncertainty arising from federal and local regulations and ambiguity concerning health care affects planning and budgeting.

Gramercy Risk finds solutions for the nonprofit industry. To see how we can improve your risk profile and insurance program, contact Dave Mocklow at 312 961-2325.
